

RACHEL GRANT

SUMMARY

As a recent Computer Science graduate from BYU, I bring a solid technical foundation and a year of hands-on web development internship experience to the table. I have worked on teams and understand the tools and technologies to succeed in a team environment. I am excited to take on a full-time role and am eager to learn and make a difference.

WORK HISTORY

Software Developer Intern, 06/2022 to 03/2023

Built For Teams - Salt Lake City, UT

- Spearheaded the adaptation of the Browser Extension (React Native) for international users, enhancing user engagement and reach.
 - Led the successful internationalization of Built for Teams' product using Ruby on Rails, expanding its accessibility to a global audience.
 - Diagnosed and resolved 50+ software bugs, contributing to a more stable and reliable user experience.
 - Developed and implemented innovative features, aligning closely with user needs.
 - Utilized Agile methodologies to streamline development processes, ensuring timely delivery of software updates.
 - Gained hands-on experience in version control using Git, facilitating seamless team collaboration and code management.
 - Developed a deep understanding of the software development lifecycle, from conceptualization and design to deployment and testing.
-

CERTIFICATION & PROJECT

Certification of The Complete 2023 Web Development Bootcamp

I completed Udemy's top-rated full-stack web development course getting first hand experience with React, MongoDB, and Node. Applying this knowledge, I created a Full Stack Portfolio Website to highlight what I've learned.

Full Stack Portfolio Website

<http://rachelgrant.me/>

- Frontend: Javascript, React.js, CSS, CSS Bootstrap, Framer Motion, HTML, Responsive
 - Backend: Node.js, Axios, Express, MongoDB, Mongoose
-
